### Announcement of Egypt's First Digital International Bid Round for Petroleum Exploration and Exploitation

The Egyptian General Petroleum Corporation (EGPC) and Egyptian Natural Gas Holding Company (EGAS) invite specialized companies in Oil and Gas exploration and exploitation to participate in Egypt's first digital international 2021 bid round which includes twenty four (24) exploration blocks in Gulf of Suez, Western Desert and Mediterranean Sea as shown in the following map according to production sharing agreements (PSA) model applicable in the Arab Republic of Egypt.

- Egypt Upstream Gateway (EUG)—Egypt's fully integrated, digital E&P platform—will provide virtual access to all 2021 bid round data, including information and coordinates of the offered blocks on an interactive map, data room viewing, seismic surveys, subsurface insights, data packages, and more. With this data at your fingertips, you can QC and instantly purchase principal and optional datasets without the need for travel. as well as the procedures, terms & conditions and the Model Agreement are available online on Monday 1<sup>st</sup> March 2021 through Egypt Upstream Gateway (EUG) Portal: <https://eug.petroleum.gov.eg>

- Interested companies shall submit their offers based on the announced procedures, main terms & conditions and the production sharing model agreement applied in Egypt.
- The purchase of Principal Data Package of a block is considered mandatory to bid for the same block.
- To participate in Egypt's first virtual bid round, register as a member through the EUG portal.
- For information on EUG membership and bid round registration, please contact [bidround@eug.petroleum.gov.eg](mailto:bidround@eug.petroleum.gov.eg).

**The closing date will be on Sunday 1<sup>st</sup> August 2021 at 12:00 noon (local time)**
