

Program 2:

SECTOR STRUCTURE REFORM

● MAIN OBJECTIVES

The objective of the program is to create a well-governed sector to help increase national wealth and achieve sustainable development.

This is achieved by separating policy making, regulatory and operational roles across the sector & create value chain focus within State-Owned Enterprises (SOEs) with empowered entities, streamlined processes, a focused entity portfolio and best practice entity governance.

PROGRAM REVOLVES AROUND THREE MAIN TOPICS

A

Demarcate Sector roles

B

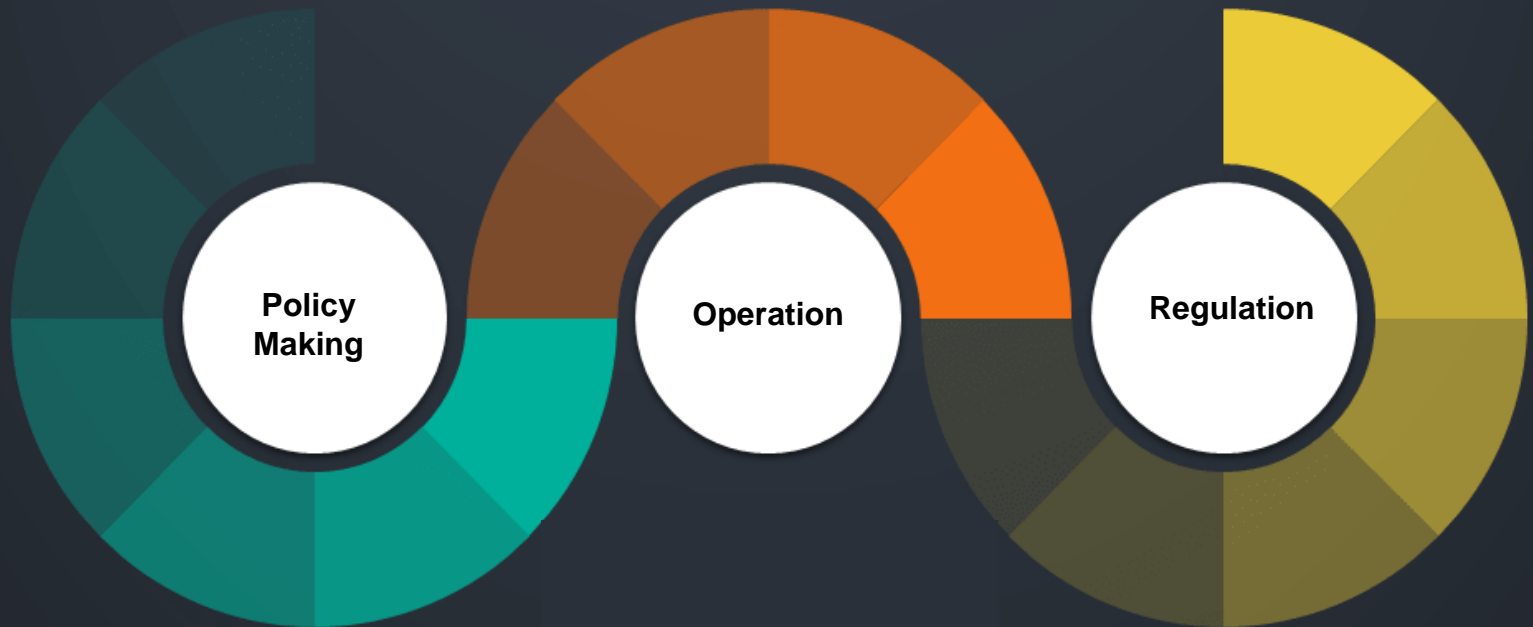

Create sector focus along the value chain.

C

Explore opportunities to rationalize sub-scale operators and control non-core businesses.

● Achievements

Creating an efficient sector structure with clear separation of policy making, operation and regulation roles to enhance the decision making process

● Achievements Cont.

○ Draft a unified sector governance code.
